### **Arcola Boulevard to Dulles West Boulevard Now Open to Traffic**

I am pleased to announce that Arcola Boulevard from Route 50 to Dulles West Boulevard is now open to traffic. VDOT has completed their final inspections, and I hosted a small ribbon cutting this morning to officially open the road. The barriers were removed a short time ago.

It took a lot of work to get through this project. I would like to thank Westbrook, the developers of Arcola Center - who built the road as a part of a County proffer - Van Metre, who played a key role in providing right of way and relocating the gas station, VDOT, and the County's Department of Transportation and Capital Infrastructure for all their work over many years.

Northbound Arcola Boulevard is a free flow right turn onto eastbound Dulles West. VDOT is requiring that Dulles West have a stop sign at the left turn onto southbound Arcola Boulevard for safety reasons due to large amounts of pedestrian traffic in this area (there is a pedestrian crosswalk in this location). Dulles West is now open all the way to the Dulles Landing Shopping Center and Loudoun County Parkway, and the connections at Hutchinson Farm Drive and Durindal Terrace are now open.

As a reminder, at my request the lane configuration at Gum Spring and Route 50 has also changed back to the way it was previously. The lane configuration is left-only turn lane, left/straight lane, right/straight lane, right-only lane.

Work continues on later phases of Arcola Boulevard to eventually open it directly to Loudoun County Parkway and Route 606. Clearing for the segment between Arcola Mills and Route 606 will begin in the next couple weeks, and work is being done near the Arcola Mills intersection first so that it can open within the next year.
