

Dear Sterling District Residents,

I wanted to inform you of a survey on Loudoun County's new website. In order to better serve Loudoun residents, the County has been working on revamping its website. This is intended to make the website easier to use and more helpful to residents. To help with this effort, the County has launched an online survey to get feedback from residents on how the website can be improved to best meet the needs of Loudoun residents. The survey is available at www.loudoun.gov/WebsiteSurvey. The website will launch later this year and the input received from the public will lead to improvements prior to launch. With your feedback it can be as helpful as possible.

Sincerely,

Koran T. Saines
Sterling District Supervisor
Loudoun County Board of Supervisors
