Pework: You must have sufficient time behind the wheel of the vehicle class you wish to be certified in prior to the first day of class. This includes the ability to back the vehicle with mirrors. It is recommended that students have a minimum of 4 hours driving time in each class of vehicle the student plans to test. The EVOC Manual and VDFP Registration (fillable, so fill it out then print it) will be sent upon online class registration, which you must download. Most students find being familiar with the student manual prior to class is key to passing the written test.

If you do not already have a Cornerstone account through VDFP, create one before class @ vafire.com.
