I, _____ hereby accept full responsibility for the adherence to all requirements of the Virginia Statewide Fire Prevention Code and the Loudoun County Fire Prevention Code pertaining to the above application.

Please return this application with check or money order payable to the County of Loudoun.

Only application pages need to be returned. The instructions page is only to assist the applicant and provide general guidance.

Instructions

This application is to be used for use, storage or dispensing of flammable or combustible liquids. This includes bulk storage, laboratories, refineries, distilleries and convenience stores. Fuel dispensing with vehicle or equipment repair facilities should use the application for ‘Repair Garage’. Removal of tanks should use the application for ‘Storage Tank Removal’.

If you are renewing an existing permit, enter the number in the space provided.

Provide the business name and ‘Doing Business As’ name if it is different. Often a business uses a corporate name that is different from the name on the location. If the business location is different from the billing office, enter it as the inspection location in the space provided.

Make sure to provide the name and contact information for the person filling out the application. The application with a check or money order payable to ‘County of Loudoun’ should be mailed to the address shown on the application. We are not equipped to accept cash or credit/debit cards at this time.

Once the permit is processed an inspection will be scheduled. Common items we look for are:

- **Exits are clear and accessible.**
- **Correct storage cans or cabinets where required.**
- **General housekeeping.**
- **Storage is not impeding egress or the operation of fire suppression systems.**
- **Portable extinguishers are accessible and properly maintained.**
- **Documentation showing current maintenance of alarm and suppression systems, where installed. This includes required and voluntary systems.**
- **Electrical panels, alarm panels and other utility controls are accessible.**
- **Proper controls, signage and extinguishers for fuel dispensers.**
- **Vehicle impact protection where required.**
- **Building address is clearly visible from the street.**

This list covers the most common items related to these occupancies. Not all of these items apply to every location, and some have additional specific requirements. If you have questions related to a specific use or operation, please contact the Fire Marshal’s Office for additional assistance.
